Xpress Fabrics— The choice is yours.

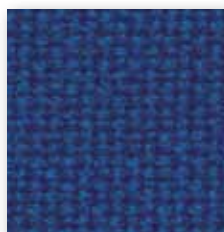

Xtreme Plus is a crepe fabric with a difference. It has STRETCH properties and features exceptional abrasion and Euro flammability performance.

Urban Plus takes its inspiration from the street. It has a sharply styled architectural look forming a structured geometric grid – reminiscent of a downtown urban cityscape. Lightly textured, there's an almost industrial metallic sheen to the fresh colourways.

Evolve— Performance, comfort & ease of adjustment.

Evolve is the new universally applicable task seating range to be developed by Senator, featuring a host of new features as standard, linked to material combinations and aesthetic styling that make this chair stand out in terms of looks, function, performance and ultimately value.

Evolve uses a new advance synchronised mechanism with enhanced geometry to ensure that the motion of the chair mirrors the natural pivot of the body providing seamless synchronisation throughout its range of movement.

EV640

Fabric Grade 1 £577
Fabric Grade 1+ £588

Standard Features

- High lift Black GRP base and 65mm castors
- Advanced synchronised tilt control
- Seat depth adjustment - 50mm travel
- Negative seat tilt feature
- 3D membrane upholstery: available in Black (EV740/ EV740HA)
- Integrated user instructions under seat

Fuse— A fusion of class, style & comfort.

The Fuse task chair has a back membrane that has been developed using a 3D knit mesh as opposed to woven mesh which provides fantastic life long comfort and support to all users without the need for adjustment. Its open aspect promotes ventilation and so prevents heat building up in the back muscles that accelerates fatigue.

- Integrated user instructions under seat

Sprint–

Performance, comfort & ease of adjustment.

Designed for simplicity and ease of use with an understated style, Sprint is a high performance high comfort task chair. Featuring a new synchro-mechanism, seat slide, back height adjustment and optional height and width adjustments for the arms. Sprint also incorporates a draughtsman's chair in its range. This seating range represents the very best integration of style, function and added value.

Standard Features

- High lift Black GRP base with 60mm castors
- Advanced synchronised mechanism, lockable in various positions and with 'anti-kick' facility
- Tension adjustment using a retractable handle allowing operation from the seated position to provide variable tension
- Seat depth adjustable providing 50mm of adjustment
- Height adjustable backrest providing 80mm of adjustment
- Integrated operating instructions in rear of backrest
- Height & Width adjustable arms

Dash–

Designed for control & performance.

Dash is designed for simplicity and ease of use with simple clean styling, competitive pricing, excellent performance, and high comfort. This task chair features a synchro mechanism, seat slide and back height adjustment with optional height and width adjustable arms. Dash represents the very best integration of style, function and value added design.

D640HA

Height adjustable arms
H1032 D666 W675 SH450-570

Fabric Grade 1 £294
Fabric Grade 1+ £299

Standard Features

- High lift Black GRP base with 60mm castors
- Advanced synchronised mechanism, lockable in various positions and with 'anti-kick' facility
- Tension adjustment using a retractable handle allowing operation from the seated position to provide variable tension
 - Pneumatic seat height adjustment
- Height adjustable backrest providing 80mm of adjustment
- Integrated operating instructions in rear of backrest
- Height & Width adjustable arms

Stroll-

Take a relaxing stroll in the office.

As an extremely competitively priced product the Stroll task chair is packed full of features and style. Apart from its distinctive back support frame, the backrest features an adjustable lumbar support within a fixed back frame. The comfort and postural support is further enhanced by the flexible and articulating backrest. In addition, the generous seat cushion thickness and the curvaceous ergonomic shapes maximise the excellent comfort levels provided by this design.

Standard Features

- High lift Black GRP base with 60mm castors
- Dynamic permanent contact tilt action, lockable in various positions and with 'anti-kick' facility
- Tension adjustment using a retractable handle allowing operation from the seated position, providing variable tension
- Adjustable lumbar support
- Height adjustable arms

Core— Configuration possibilities are almost endless.

Core is a versatile desk system with a fresh clean aesthetic based around a horizontal beam construction which provides structure and rigidity and allows for the fixing of the various system elements. The flexibility designed into the system allows Core to provide a comprehensive range of different applications. Core is available as a four leg version, cantilever frame or continuous bench using simple, cost effective, flexible components and legs can be shared wherever necessary. Side-by-side workstations utilise the shared leg facility keeping costs to a minimum by 'losing' a leg assembly. When in a bench configuration, a reduced width mid-leg is used to allow unrestricted access along the whole length of the workstation.

Harley Folding—

Quickly assembled, stacked & stored.

Harley Foldaway tables are designed to fold and stack flat for convenient storage. Plastic buffers/spacers set beneath the top prevent any wood to wood or metal to wood contact when stacked. The steel tubular frames can be Black or Silver powder coated or Chrome plated and they are fitted with adjustable feet to compensate for uneven floors.

Axis-

A unique folding design for ease of configuration.

Harley Axis is an innovative and functional table system. Frames fold within its own length for ease of re-configuration, storage and transportation. Being ideally suited to training and conference purposes the table can be easily dismantled and stored with the top being easily attached to the under frame by moulded plastic locating lugs. As no tools are required to assemble or disassemble the Axis system it can be quickly and easily reconfigured to suit any particular need. Harley Foldaway tables are designed to fold and stack flat for convenient storage. Plastic buffers/spacers set beneath the top prevent any wood to wood or metal to wood contact when stacked. They are fitted with adjustable feet to compensate for uneven floors.
